BLUE JO

206-778-4058

greenajo@cs.washington.edu

Sophomore at the University of Washington, majoring in computer science.

PROJECTS

Built a campus map and shortest path application (Java, Swing, JUnit)

Implemented malloc (C)

Implemented a hash map and AVL tree without the use of Java data structures (Java)

Helped implement a prototype for an online tool that encourages researchers to create conclusion pages for online experiments (HTML, CSS, Bootstrap, JQuery, Javascript)

COURSEWORK

Data Structures and Parallelism

Foundations of Computing I

Software Design and Implementation

The Hardware-Software Interface

Introduction to Data Management

Programming Languages

SKILLS

Java

HTML

CSS
